Homologation of a new silencer for 500cc Track racing engines (Speedway, Longtrack and Ice racing).

A new silencer for Speedway machines has been homologated recently, in conformity with the FIM Technical Rules for Track Racing (Art. 01.31) in terms of type and construction, following inspection and sound level tests.

The new silencer, is built by Akrapovic d.d. (Slovenija) and especially designed to equip modern day Track Racing motorcycles. The new silencer will be available at the end of June 2009.

The new silencer meets the maximum sound levels requirements, measured with the '2 metre max method'.

1.1 FIM Identification and Product details

The new Akrapovic silencer for speedway machines carries the following identification and Track Racing Homologation number: **FIM TRS 2010/05**

1.2 Validity

Without modifications or (heavy) damage once in use, the homologated silencer will be valid for a period of five (5) years.

The homologation period for this product starts from 01.01.2010 and is valid until 31.12.2014.

1.3 Approval

In lieu of the above, the person(s) signing hereunder approve the Akrapovic reflection silencer (**FIM TRS 2010/05**) towards an FIM homologation.

Date: 20 May 2009
